

343 | locking gunnel track mount

Purpose-built for boats with integrated gunnel tracks, the 343 securely attaches to your vessel without the need to drill holes, or carry tools.

This simple, intuitive design allows you to quickly add, remove, or re-position the mount anywhere on the boat, from bow to stern.

A dependable lock to keep gear solidly in place, and a push-button release makes changes and removal fast and easy.

Compatible with all of your favourite post mount Scotty accessories.

No tools or drilling holes required
